Every child has a fundamental right to high-quality health care. Dear Parent/Guardian,

Healthy teeth are important for your child's overall health and wellbeing, and one way to help your child maintain healthy teeth is to ensure he or she receives a dental cleaning every six months. Illinois law requires every child in Kindergarten, 2nd, 6th, and 9th grade to have a dental exam by May 15 of each year, and to help families meet this requirement, CPS and the Chicago Department of Public Health have partnered to provide high-quality dental services to students who do not have access to a dentist. It is recommended that students see the dentist every six months.

The CPS Dental Program provides the following services:

- Dental Examination
- Dental Cleaning, if needed
- Fluoride Treatment, if needed
- Dental Sealants as needed
- Referral for other treatment, if needed

To enroll your child in the CPS Dental Program, please complete and sign both sides of the following two forms in this packet and return them to school as soon as possible.

1. *School-Based Oral Health Program, Dental Consent, Release of Liability and Authorization Form*
2. *School-Based Oral Health Program Authorization Form- HIPAA*

If your child does not have a private dentist and has not received dental care in the last 6 months, he or she is eligible to participate in the CPS Dental Program at their school. Dental services are available to your child at no cost, however, if you have public health insurance (Medicaid), your benefits will be used. The dentist will come to your child's school once during the school year.

If the student has received a dental exam within the past six months, the child will only receive a dental examination and dental sealants as needed. The student will not receive a dental cleaning.

If your child has a private dentist and will not need to participate in the CPS Dental Program, please have your dentist complete the Illinois Dental Examination Report Form and return it to your child's school.

If you have any questions, please contact Katheryn Stafford-Hudson, Project Manager (773) 535-8675, kgstafford-h@cps.edu.

For Students with Asthma

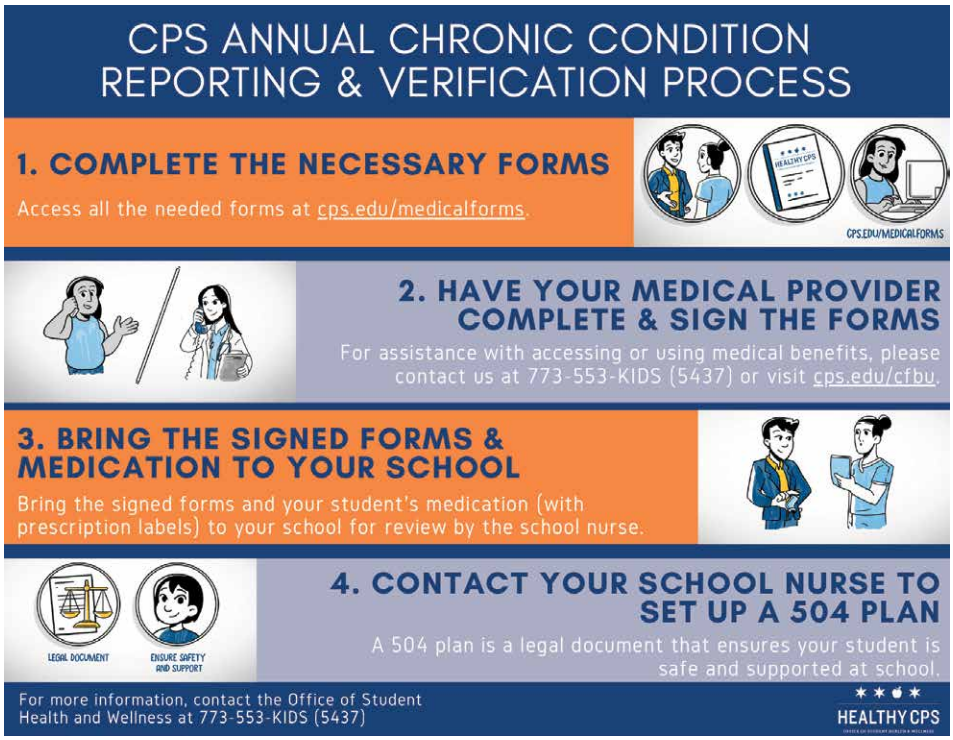
Asthma is the most common chronic illness of childhood. Chicago has an especially high number of children with asthma, and children in some Chicago neighborhoods suffer more than others. All students, including those with asthma, should feel safe and supported at school.

Please use the forms in this packet to tell your school about your child's asthma. The school nurse or clerk may have additional forms to complete. Health forms must be updated each school year. They are reviewed by the school nurse and relevant CPS staff and kept on file for use during the school year.

You must turn in these forms each school year:

- **Asthma Action Plan** — signed by a medical provider.
- **Request for Administration or Self-Administration of Medication** — completed by the parent/guardian and medical provider.
- **Original (or clear copy) of asthma medication or pharmacy label with your child's information.**

If your child has a chronic health condition, follow these four steps:



- Any student with asthma, food allergies, diabetes, or any other chronic condition can have a Section 504 Plan so they are supported during the school day.
- A 504 Plan provides the needed changes the school must make to help your child succeed in school.
- For more information, contact the Office of Student Health and Wellness at **cps.edu/oshw** or **(773) 553-KIDS (5437).**

FREQUENTLY ASKED QUESTIONS ABOUT ASTHMA CARE AT SCHOOL

Why is it important to tell the school about my child's asthma?

- Your child's asthma may flare up at school. Knowing their medical history helps staff know what to do if there is an emergency during the school day.
- The information lets the school know what medicine your child may need, so staff can be ready to help if necessary.

Are school staff able to help a student manage their asthma?

Yes. School staff complete a training every year on asthma awareness, including how to recognize and handle asthma emergencies.

Can a student self-manage their asthma?

Yes. CPS students are allowed to carry and use their own "quick-relief" or "rescue" asthma medicine if written parent permission and a prescription label and medication is provided to the school.

What is the school's asthma emergency response?

- Schools will follow the steps outlined in your child's Asthma Action Plan and 504 Plan/IEP.
- If the medication is not working or the student's medicine has not been sent to the school, 911 will be called. Parents will be called after 911.

What if a student has an asthma attack but has no plan on file?

The school will follow an Emergency Asthma Action Plan and call 911. Parents are notified after calling 911.

Does the student need a Section 504 Plan?

- A Section 504 Plan must be offered. Speak to your child's school nurse and medical provider to know what is needed.
- A 504 Plan does not mean the student has a disability. The 504 Plan will outline any needed changes a school must make so your student is safe at school.
- If there is no 504 plan, 911 will be called upon recognition of signs and symptoms of an asthma attack.

I would like more information about asthma care in school:

- Read the CPS Asthma Policy at **https://policy.cps.edu/download.aspx?ID=1283.**
- Visit the Office of Student Health and Wellness website at **http://cps.edu/oshw.**

- Contact the Office of Student Health and Wellness at **oshw@cps.edu.**

Students in Temporary Living Situations

(STLS) Notice of Rights of Homeless Students

The Board of Education of the City of Chicago (Board) shall provide an educational environment that treats all students attending the Chicago Public Schools (CPS) with dignity and respect. Every student in a temporary living situation shall have equal access to the same free and appropriate educational opportunities as students who are permanently housed. This commitment to the educational rights of students in a temporary living situation, youth, and youth not living with a parent or guardian, applies to all services, programs, and activities provided or made available by the Board.

A student is considered to be in a temporary living situation if he or she lacks a fixed, regular, and adequate nighttime residence and includes children and youth who are:

- sharing the housing of other persons due to loss of housing, economic hardship, or similar reason;
- living in a motel/hotel, trailer park or camping ground, due to lack of alternative, adequate housing;
- living in emergency or transitional shelters;
- living in cars, parks, public spaces, abandoned building, substandard housing, bus or train station, or similar setting;
- abandoned in hospitals;
- migratory children living in one of the above settings;
- youth not in the custody of a parent/guardian (unaccompanied youth) of any age, in one of the above settings.

Students who temporarily reside outside of Chicago due to homelessness and attend their CPS school of origin receive transportation assistance as do students experiencing homelessness who live in the City of Chicago but attend a school of origin outside of CPS.

Dispute Resolution: When a school official denies a student in a temporary living situation enrollment, eligibility, school selection and/or transportation, the parent or student may file a complaint with the CPS STLS Department. The STLS Department will attempt to resolve the dispute in a timely manner. The STLS Department will refer you to free and low-cost legal services to help you, if you wish. During the dispute, the student must be immediately enrolled in the school with participation in school activities and/or provided transportation until the dispute is resolved. Every Chicago Public School, including charter schools, has an STLS Liaison who will assist you in making enrollment decisions, provide notice of the dispute resolution process, if needed assist you in completing the dispute resolution forms and refer you to low-cost legal assistance.

All STLS Students Have Rights To

Immediate school enrollment. A school must immediately enroll students even if they lack health, immunization or school records, proof of guardianship, or proof of residence. "Enrollment" means enrolled into the school, attending classes and participating fully in school activities.

Enroll In:

- the school they attended when permanently housed or the school in which they was last enrolled (school of origin).
- any school that permanently housed students living in the same attendance area in which the STLS student or youth is actually living are eligible to attend (attendance area school).
- Enroll in preschool.

Remain enrolled in his/her selected school for as long as they remains in a temporary living situation or, if the student becomes permanently housed, until the end of the academic year.

Access to charter schools, selective enrollment schools, magnet schools, and all other CPS programs in the same manner as students who are permanently housed and assistance with application process will be provided upon request.

Participate in tutoring services beyond those provided to all students; school-related activities; and/or receive other support services.

Receive free school meals, fee waivers, free uniforms, and low-cost or free medical referrals.

Transportation services: If parents/caregivers choose to continue their child's education in the school of origin and transportation is requested, CPS will provide transportation to and from the school of origin, and all school-related activities, for as long as the student is in a temporary living situation or, if the student becomes permanently housed, until the end of the academic year.

- **Eligible students receive CTA transportation cards and adult caregivers of eligible students in grades PK-6 receive CTA transportation cards to accompany the student to/from school. Eligible students in grades PK-6 whose caregiver is unable to accompany them on public transportation due to a hardship may apply for yellow school bus service by submitting documentation or affidavit of their inability to transport the student. Examples of a "hardship" situation are:**
  - Parent/caregiver employment, job training, or education program.
  - Parent's/caregiver's mental and/or physical disability.
  - Children need to be transported to and from schools at different locations.
  - Court order, DCFS, or DCFS contract agent requires activities that do not enable parent/guardian to transport children to and from school.
  - Rules of shelter or similar facility will not permit parent/caregiver to leave to transport children to and from school.
  - Other good cause why parent/caregiver cannot use public transportation to transport children to and from school.

For more information about the rights of STLS students in Chicago Public Schools, call the STLS program at **(773) 553-2242**, fax at **(773) 553-2182**, email at **STLSInformation@cps.edu**, go to **www.cps.edu/STLS**, or visit the STLS policy at **www.cps.edu/STLSpolicy.**
